

Archeologists

Description

Blanton & Associates, Inc. seeks team-oriented archeologists for our Austin, Texas office. The successful candidates are Principal Investigators (PI) or have the qualifications to become a PI.

Responsibilities will include:

- Serving as the PI for projects and obtaining Antiquities Permits from the THC.
- Completing compliance documentation and coordination for the Antiquities Code of Texas and Section 106 of the NHPA.
- Conducting research and data collection for environmental investigations and documentation.
- Conducting fieldwork and attending meetings, as needed or required.
- Preparing environmental documentation, including technical reports, and permit applications.
- Supporting colleagues completing survey and survey reports as needed.

Qualifications

Advanced degree in archeology, anthropology, or similar discipline. Work experience should include projects in Texas. TxDOT experience and pre-certification is a plus. Local candidates are preferred.

Must have 3+ years relevant work experience drafting and completing compliance reports.

Working knowledge of environmental regulations, including NEPA, Section 106 of the National Historic Preservation Act, and the Antiquities Codes of various states.

Computer skills should include the MS Office Suite. Excellent technical writing and communication skills required. (A writing sample may be requested.)

Please send cover letter, resume, and three professional references to jobs@blantonassociates.com. Position is open until filled. We thank all applicants for their interest; however only those selected for an interview will be contacted. No phone calls, please.

Compensation

Blanton & Associates believes in providing a generous compensation package for their employees. These are full time, salaried position with medical, dental, and vision insurance provided. A 401(k) plan with profit sharing is included in the highly competitive benefit package. Salary is based on level of experience.

Company Description

Blanton & Associates, Inc., delivers a broad range of environmental consulting, planning, and project management with a focus on regulatory compliance and permitting.
