

Wetland Delineator / Wetland Scientist

Description

Blanton & Associates, Inc. seeks a senior wetland delineator / wetland scientist for our Austin, Texas, office. The wetland scientist will perform wetland delineations and functional assessments in accordance with the U.S. Army Corp of Engineers (USACE) methodologies, as well as prepare delineation reports, assess impacts, and prepare USACE permit applications and mitigation plans.

Qualifications

Requirements: A Master's degree in Biology, Environmental Science, Ecology, Botany, or related field. Relevant work experience may be substituted for advanced degree. Must be able to conduct field work in remote locations and be comfortable in the field environment. Must be able to compose technical reports from the results of field investigations. Recognizes importance of consistent procedures and protocols. Local candidates are highly preferred.

Skills: 8+ years relevant professional work experience. Work experience should include substantial skill with wetland delineation and functional assessments (preferably in Texas), impact and permit assessments, and preparation of delineation reports, USACE Section 404/10 permit applications, and mitigation plans. Experience with GIS and GPS technologies required. Computer skills should include the MS Office Suite. Excellent verbal and written communication skills required.

Certification as a Professional Wetland Scientist (PWS) preferred.

Please send cover letter, resume, and three professional references to jobs@blantonassociates.com. Position is open until filled. We thank all applicants for their interest; however, only those selected for an interview will be contacted. No phone calls, please.

Compensation

This is a full time, salaried position with medical, dental, and vision insurance provided. A 401(k) plan with profit sharing is included in the benefit package. Pay commensurate with experience.

Company Description
